Grass seed has been shown, and in due course of time the beauty of the building will be greatly enhanced by a growth of green grass. The surroundings are a little crowded, and the best effect is lost, but from the front, with the lawn well kept, the building presents a fine appearance.

MICHAEL RYAN

Among the old time Plymouth boys who will still have a tender feeling for Plymouth and the home people, is Will Rentschler, son of Mr. and Mrs. John Rentschler of Miner street. Will is in the book business in Chicago, but has some property in Kalamazoo, Michigan, which needed looking after, so he sent his wife down here Thursday, while he went to see after his belongings; arriving this morning, for a visit over Sunday with his parents, and meanwhile shake hands with his hosts of friends.

U. S. Lemert went to Lakeville this morning, where he will attend a sale, and if a horse should suit his fancy, and go right, he will be in on the bidding. Mr. Lemert does considerable business in the horse line, as can be seen by the records that show he has bought seven hundred head of horses since the first of December last. It will be remembered that he sold 104 head the day of his sale, and though that is only a couple of weeks ago, he has sold thirty head since then at private sale. Few people realize what a volume of business is done in this line right here in Plymouth.

When Pinafore was given by the Mozart club, the audience was listening to Plymouth singers, and seeing Plymouth actors. With the single exception of Carl H. Brown, who lives in Hamlet, but is a pupil under Prof. Owens, and is a member of the Mozart club, and has attended the rehearsals every week during the winter, every voice was a resident of Plymouth, no outside help being procured this year whatever. A number of musicians from other places were here and heard, but the entire performance was home talent. This will serve to correct any impression that outside help was necessary. The Orchestra also is composed of our own citizens, and is called the Apollo orchestra, Hubert Tanner Director.

Henry A. Pershing, editor of "The Friend" of South Bend, came down on the early train this morning. Mr. Pershing is a former resident here, his father's home having been the brick house corner of north Center and Washington streets, now occupied by the Ball family. Bert, as he is familiarly known among the people here, is a graduate of old Plymouth High school, being in the list of the first class to graduate in 1876, and all those who attended the meeting of the Alumni last year will remember the speech he made in responding to the call for his old class. He looks well, and says he is feeling fine.

J. N. Wilson left on the 5:42 train this morning for Twin Lakes, where he will attend to the planting of a number of trees at the Menominee monument grounds today.

Wm. Wallace is moving from his home on the corner of Pearl and

Conger streets, to the residence recently vacated by Harrison Riddle on Conger street. Madison Stoops of Tyrer owns the property now.

Rev. Joseph Williams who preached at the Church of God last Sunday, went from here to Piercetown, where his mother had been visiting with Mrs. S. Roxana Wince for a few weeks. Mr. Williams and his mother changed cars here early this morning for his home near Frankfort.

A. P. Kyle of Ft. Wayne is here visiting his brother, W. B. Kyle of Pearl street. Mr. Kyle is a pensioner of the Pennsylvania road, having served that corporation for the required term of years, and reached the age limit as well. He was also injured in a wreck that occurred in Ohio some four years ago. When the weather gets warm William writes to his brother to come, and they hie themselves to the lake for a mess of fish. Many will be much disappointed, but Mr. Walker says there is no help for it.

Children Cry FOR FLETCHER'S CASTORIA

SCHOOL ENUMERATION SHOWS 953 CHILDREN

PLYMOUTH HAS LESS THAN ONE CHILD OF SCHOOL AGE IN EACH HOME, AS SHOWN BY FIGURES JUST TAKEN BY ENUMERATORS.

The total number of children of school age in Plymouth is 953, according to the statistics just completed by the school enumerators. There are 1061 families, so it appears very plain that there is not one school child for each family.

On the west side of Michigan street the work was done by A. L. Garl and shows the following results:

There are 690 families, 325 of which have children of school age and 365 of which have no children of school age. There are a total of 633 children of school age, 315 of them being males and 318 being females. From these figures it appears that there are nearly twice as many children of school age as in that part of the city east of Michigan street.

The total number of school children in the city last year was 930, there being 620 west of Michigan street and 310 east.

Style that stays stylish

YOU young fellows who know and like the smart distinction of style in the clothes we sell, can best understand why we say so much about quality.

You want style; but what's the good of style that doesn't stay stylish? Do you know what it is that keeps these

clothes looking well, even after a whole season's wear? It's the most important thing to know about clothes.

All-wool fabrics first; there are plenty of clothes that are not all-wool. Scientific shrinking by cold water; a process that cotton mixtures cant stand. The best tailoring; skilled hands shaping the garment, not just sewing seams together.

These are the things you get when you buy Hart Schaffner & Marx clothes here. They're the things you want to get.
